

MOBILE DEVELOPER

ABDUSSAMED KATI

Ümraniye/Istanbul, Turkey | sametkati30@gmail.com | +90 538 727 42 95

PROFILE

As a Computer Engineer, I actively work in both cross-platform and native mobile application development. Driven by my strong interest in mobile technologies, I continuously strive to improve myself and expand my technical expertise. While developing cross-platform applications with Flutter, I also build high-performance, user-focused native iOS applications using SwiftUI and UIKit. I place great importance on clean architecture principles, sustainable code structure, and scalable system design. Additionally, I take an active role in backend service integration, API consumption, and testing processes. With a strong career objective in the mobile industry, I am committed to continuous self-improvement. By combining my technical expertise with teamwork and a strong sense of project responsibility, I aim to contribute to large teams and take part in large-scale projects. In the long term, I aspire to specialize in mobile software development and establish myself as a qualified and impactful professional in the industry.

EXPERIENCE

University of Health Sciences Istanbul , Intern Mobile Developer

Jul 2025 – Aug 2025

- Assisted in software development projects by contributing to coding, debugging, and troubleshooting.
- Collaborated with cross-functional team members to design and implement user-friendly applications.
- Performed testing and quality assurance to ensure high performance and reliability.
- Actively participated in daily stand-up meetings to share progress, address challenges, and align with team goals.
- Gained hands-on experience with industry-standard tools, frameworks, and development methodologies.

Vodvil, IOS - Mobile Developer

Jul 2024 – Sep 2025

- Contributed to the development of Vodvil, a cross-platform mobile application where users can create movie lists, add friends, and receive weekly film recommendations.
- Collaborated with a team of developers to design and implement social features such as friend connections and activity sharing.
- Built and optimized the iOS application using Swift and UIKit, ensuring smooth user experience and responsive design.
- Integrated backend services (REST API) for authentication, data management, and real-time updates.
- Participated in testing, debugging, and App Store release process to deliver a stable and user-friendly product.
- Gained hands-on experience in team-based code collaboration (Git) and deployment.

PBS Computer and Electrical Security Systems, R&D Intern

Aug 2025 – Sep 2025

- Assisted in research and development activities related to hardware and security systems.
- Supported the team in testing and maintaining electronic equipment.
- Gained introductory experience with hardware-oriented workflows and security system components.

Plancete Mobil Application (Freelance) - Flutter Developer

Feb 2026 – Present

- Developing a scalable service marketplace mobile application using Flutter with MVVM architecture.
- Managing application state efficiently with Riverpod.
- Integrating RESTful APIs for authentication, user management, and dynamic data operations.
- Designing clean and modular project structure following modern mobile architecture principles.
- Implementing role-based UI flows.
- Handling token-based authentication, API communication, and error management.
- Working on map-based service discovery and real-time user interaction flows.

SKILLS

Flutter	Dart	Mobile Development
Swift	SwiftUI	Swift UIKit
IOS Development	Firebase	Git
Firebase	SOLID	REST API

EDUCATION

Çaykara Anatolian High School

Sep 2015 – Jun 2019

Istanbul University-Cerrahpaşa, BSc in Computer Engineering

Sep 2020 – Jul 2025

- Studied Computer Engineering with a focus on software development, algorithms, data structures, and system design.
- Gained hands-on experience in coding projects, mobile and web applications, and collaborative teamwork.
- Developed problem-solving, debugging, and application deployment skills.

LANGUAGES

English B2 - Turkish Native
